

AI Services Agreement

This AI Services Agreement ("Agreement") is made on 15/06/2026 between:

- **Voice AI Solutions Pty Ltd** (ABN 26 676 695 227), of 17a Jennifer Avenue, Blacktown NSW 2148, Australia ("Service Provider"); and

Company Name 21overlays PTY LTD

ABN 219 378 656 33

of 21/2 Burrows Road South ST Peter's NSW 2044 ("Client").

Together referred to as the "Parties" and each a "Party".

Background

The Service Provider provides AI-powered automation solutions. The Client wishes to engage the Service Provider to supply such solutions on the terms set out in this Agreement.

1. Services Provided

The Service Provider agrees to provide the Client with access to its subscription-based Software as a Service (SaaS) platform for the automation of business processes using artificial intelligence ("Services"). The Services include core functions such as business process automation, customer service automation, and sales automation flows, as more fully described in Appendix A (Scope of Works).

Any additional features, integrations, or customisation services outside the Scope of Works will be treated as a change request. The Service Provider will provide a written quotation for such change request, and no additional work will commence until approved in writing by the Client.

2. Payments

(a) Platform Fees

The Client agrees to pay the monthly subscription fees applicable to the Client's chosen package, as set out in Appendix A (Scope of Works and Fee Schedule). Platform Fees are payable monthly in advance, on the first (1st) day of each month, and must be paid through the Service Provider's nominated automatic billing system.

(b) Usage Fees

In addition to the Platform Fees, the Client agrees to pay all usage-based fees for call minutes, AI processing, and other consumption charges as set out in Appendix A. Usage Fees are calculated monthly in arrears and invoiced at the end of each calendar month, and must be paid through the Service Provider's nominated automatic billing system.

(c) Commencement of Billing

Platform Fees will commence once the AI Agent has reached practical completion in accordance with the acceptance

criteria set out in Appendix A. Practical completion will be deemed to have occurred where the acceptance criteria are met and no material defects are identified by the Client within five (5) business days of testing.

(d) Non-Payment

Failure to make payment when due may result in suspension of the Services until payment is received in full. If payment remains outstanding for more than [14] days, the Service Provider may terminate this Agreement by written notice.

(e) Setup Fees

All setup or implementation fees are non-refundable.

(f) GST

Unless expressly stated otherwise, all amounts payable under this Agreement are exclusive of GST, which will be payable by the Client in addition to the fees.

(g) Late Payment

The Service Provider may charge interest on overdue amounts at the rate of [1%] per month, accruing daily until paid in full.

3. Term and Termination

(a) Term. This Agreement commences on the date it is signed by both parties and continues on a month-to-month basis unless otherwise agreed in Appendix A.

(b) Termination for Convenience. Either party may terminate this Agreement by giving not less than thirty (30) days' prior written notice to the other party.

(c) Termination for Cause. The Service Provider may terminate this Agreement immediately by written notice if the Client:

- (i) fails to pay any amount due within fourteen (14) days of the due date;
- (ii) commits a material breach of this Agreement and fails to remedy it within fourteen (14) days after receiving notice; or

(iii) becomes insolvent, is placed into liquidation, administration, or receivership, or ceases to carry on business.

(d) Effect of Termination. Upon termination of this Agreement:

(i) the Client must immediately cease using the Services, except as required during the permitted data extraction period;

(ii) the Client will have thirty (30) days to extract any data from the Services in a standard industry format provided by the Service Provider. The Service Provider may charge reasonable fees for assistance with extraction beyond self-service options;

(iii) after this period, the Client's access will be permanently revoked and all data may be deleted in accordance with the Service Provider's data retention policy; and

(iv) each party must promptly return or destroy the other party's Confidential Information in its possession, subject to any legal or regulatory retention requirements.

(e) Survival. Clauses relating to payment, confidentiality, intellectual property, limitation of liability, indemnities, and any other provisions which by their nature are intended to survive termination, will remain in force after termination of this Agreement.

4. Access to Automation Solutions

(a) Subject to the Client's ongoing compliance with this Agreement, including timely payment of all fees, the Service Provider grants the Client a limited, non-exclusive, non-transferable, revocable licence to access and use the automation solutions and related materials developed and made available under this Agreement during the term of the subscription.

(b) The licence granted under this clause is for the Client's internal business purposes only and does not permit sublicensing, resale, or use by third parties unless expressly agreed in writing.

(c) All intellectual property rights in the automation solutions, including the platform, software, source code, configurations, documentation, enhancements, and any customisations created under or in connection with this Agreement, remain the sole and exclusive property of the Service Provider. Nothing in this Agreement transfers any intellectual property rights to the Client.

(d) The Service Provider reserves the right to reuse, adapt, and commercialise any developments, improvements, configurations, or techniques created in the course of providing the Services for the benefit of other clients.

(e) The Client retains ownership of all data it provides to or processes through the Services ("Client Data"). The Service Provider does not acquire any rights in Client Data except to the extent necessary to perform the Services.

(f) The Service Provider may suspend the Client's access to the automation solutions if any payment remains overdue, or if the Client is in material breach of this Agreement.

(g) Restrictions. The Client must not, and must not permit any third party to, copy, modify, adapt, translate, create derivative works from, decompile, disassemble, or otherwise attempt to derive the source code of the Services or automation solutions, except to the extent that such activities cannot be restricted under applicable law.

5. Time Estimates

(a) The Service Provider may provide the Client with time estimates for the completion of tasks or milestones related to the Services. These estimates are indicative only, based on the Service Provider's professional experience, and are provided for planning purposes.

(b) The Client acknowledges that actual completion times may vary due to factors including, but not limited to, changes in requirements, unforeseen technical issues, or delays in the Client providing required information, access, or approvals.

(c) Unless expressly set out in Appendix A (Scope of Works), time estimates do not constitute binding deadlines and the Service Provider will not be liable for any loss, cost, or damage arising from a variation between estimated and actual completion times.

6. Additional Features, Integrations, and Optimisations

(a) The setup fee paid by the Client covers the initial configuration of the AI solution as described in Appendix A. The base monthly subscription fee covers ongoing support and maintenance of the existing configuration only.

(b) The base fee does not include, and the Client acknowledges that the following are out of scope and chargeable separately at the Service Provider's then-current rates as set out in Appendix A (Fee Schedule):

(i) development of additional features;

(ii) integrations with third-party platforms or systems;

(iii) prompt engineering or optimisation beyond minor edits made by the Client;

(iv) analysis of business processes or environments to update the AI knowledge base; and

(v) any other enhancements or modifications requested by the Client.

(c) Any changes to the Client's business processes that require updates to the AI solution will constitute a chargeable change request. Such work will be quoted and agreed in writing before commencement and will be charged in accordance with Appendix A (Fee Schedule).

(d) The AI solution requires ongoing monitoring by the Client to ensure its effectiveness. The Service Provider is not responsible for any performance issues resulting from the Client's failure to monitor or update the AI solution.

(e) The Client may make minor prompt edits or optimisations using the tools provided by the Service Provider. Any such edits are at the Client's own risk, and the Service Provider is not responsible for errors or issues arising from Client-led changes.

(f) If Client-led changes cause errors, degradation of performance, or system instability, the Service Provider may, at the Client's cost and in accordance with Appendix A (Fee Schedule), roll back the AI solution to its last stable configuration or otherwise remediate the issue.

7. Client Responsibility for Reviewing AI Outputs

(a) The Client acknowledges that, like human staff, the AI solution requires oversight and that it is the Client's responsibility to regularly review and verify the AI's outputs to ensure they are accurate, appropriate, and aligned with the Client's business objectives and compliance obligations.

(b) While the Service Provider will use commercially reasonable efforts to configure the AI solution in accordance with Appendix A, the Service Provider makes no representation or warranty that the AI's outputs will be free from errors, omissions, inaccuracies, or hallucinations.

(c) The Service Provider is not liable for any reliance by the Client on AI outputs without independent review or verification. The Client remains solely responsible for all decisions, actions, and outcomes based on or influenced by the AI solution.

(d) Where the Client elects to maintain and update the AI knowledge base, the Client is solely responsible for the accuracy and appropriateness of the information contained within it.

8. Support and Training

(a) Support Services. The Service Provider will provide the Client with technical support for the Services as described in Appendix A (Scope of Works and Fee Schedule). Support is limited to the configuration and functionality of the Services. Any additional support beyond the agreed scope may be chargeable at the Service Provider's then-current rates.

(b) Training. The Service Provider will provide initial training to the Client on the use of the Services. Ongoing or additional training sessions may be arranged as required, subject to additional fees in accordance with Appendix A (Fee Schedule).

9. Intellectual Property Rights

(a) Ownership. The Service Provider retains all rights, title, and interest in and to the Services, the AI platform, and any associated software, documentation, enhancements, modifications, or customisations, whether developed for the Client or otherwise. Nothing in this Agreement transfers any intellectual property rights to the Client.

(b) Restrictions. The Client must not, and must not permit any third party to, duplicate, distribute, modify, reverse engineer, decompile, disassemble, adapt, translate, or create derivative works from the Services, except to the extent such activities cannot be restricted under applicable law.

10. Confidentiality

(a) Confidential Information. For the purposes of this Agreement, "Confidential Information" means any non-public, proprietary, or confidential information disclosed by one party ("Disclosing Party") to the other ("Receiving Party"), whether orally, in writing, or by any other means, including but not limited to pricing, technology, software, business strategies, processes, financial information, customer or client data, and any other information designated as confidential at the time of disclosure or which a reasonable person would understand to be confidential. For clarity, the Service Provider's intellectual property, know-how, and technical materials will always be considered Confidential Information.

(b) Obligations. The Receiving Party must:

- (i) keep all Confidential Information strictly confidential;
- (ii) use the Confidential Information solely for the purposes of performing its obligations under this Agreement; and
- (iii) not disclose the Confidential Information to any third party without the prior written consent of the Disclosing Party, except to its employees, contractors, or professional advisers who need to know the information for the purposes of this Agreement and who are bound by obligations of confidentiality no less restrictive than those in this Agreement.

(c) Exclusions. Confidential Information does not include information that:

- (i) is or becomes publicly available other than through a breach of this Agreement;

(ii) is lawfully obtained by the Receiving Party from a third party without restriction on disclosure;

(iii) is independently developed by the Receiving Party without use of or reference to the Confidential Information; or

(iv) is required to be disclosed by law, court order, or regulatory authority.

(d) Duration. The obligations under this clause survive termination of this Agreement and continue for a period of five (5) years after the date of termination.

11. Liability and Indemnification

(a) Indemnification by Client. The Client indemnifies and holds harmless the Service Provider, its officers, employees, and contractors from and against any claims, damages, liabilities, costs, and expenses (including reasonable legal fees) arising out of or in connection with:

- (i) the Client's use or misuse of the Services;
- (ii) any breach by the Client of this Agreement; or
- (iii) any claim that the Client Data infringes the rights of a third party.

(b) Indemnification by Service Provider. The Service Provider indemnifies the Client against any direct loss or damage suffered by the Client arising from a proven infringement of third-party intellectual property rights by the Services, provided the Client promptly notifies the Service Provider of the claim and permits the Service Provider to control the defence and settlement of the claim.

(c) Limitations of Liability. To the fullest extent permitted by law, the Service Provider's total aggregate liability to the Client for all claims arising out of or in connection with this Agreement, whether in contract, tort (including negligence), statute or otherwise, is limited to the total fees paid by the Client for the Services in the calendar month during which the event giving rise to the claim occurred. This limitation does not apply to liability arising from the Service Provider's wilful misconduct or fraud.

(d) Exclusions. The Service Provider is not liable for:

- (i) any indirect, incidental, special, punitive, or consequential loss or damage (including loss of profits, revenue, data, goodwill, or anticipated savings);
- (ii) any reliance by the Client on AI outputs without independent review or verification; or
- (iii) any errors, omissions, inaccuracies, or hallucinations generated by the AI solution.

12. Compliance and Data Responsibility

(a) Legal Compliance. The Client must comply with all applicable laws, regulations, and industry standards in connection with its access to and use of the Services, including but not limited to privacy, data protection, telecommunications, and consumer protection laws.

(b) Customer Data and Leads. The Client warrants that all customer data or leads provided to the Service Provider for the purpose of executing the Services have been collected and shared in full compliance with all applicable laws and regulations, including the Privacy Act 1988 (Cth) and any other relevant data protection legislation. The Client must obtain all necessary consents and authorisations from the individuals to whom the data relates before providing such data to the Service Provider.

(c) Role of the Service Provider. To the extent that the Client provides personal data to the Service Provider under this Agreement, the Client acknowledges that:

- (i) the Client is the data controller (or equivalent under applicable law);
- (ii) the Service Provider acts only as a data processor, processing such personal data solely on the Client's instructions and for the purposes of performing the Services; and
- (iii) the Client remains solely responsible for ensuring the lawfulness of the collection, transfer, and use of such personal data.

(d) Evidence of Consent. The Client must maintain and, upon reasonable request, provide evidence of such consents and authorisations, including records showing the date, time, and method of consent obtained.

(e) Indemnification. The Client indemnifies and holds harmless the Service Provider from and against any claims, damages, liabilities, costs, and expenses (including reasonable legal fees) arising from or related to:

- (i) any breach of this clause by the Client;
- (ii) the Client's provision of customer data or leads without proper authorisation; or
- (iii) any resulting data breach or unauthorised use of customer information.

(f) Data Breach Responsibility. The Client acknowledges that it is solely responsible for the legality, security, and privacy of all customer data it provides to the Service Provider. The Service Provider is not liable for any data breaches or privacy violations that arise as a result of the Client's collection, handling, or disclosure of such data.

(g) Export Control. The Client must not export, re-export, or otherwise transfer the Services or any related technology in violation of any applicable export control or trade sanction laws.

13. Data Sovereignty and Security

(a) Data Location. The Services and all Client Data are stored and processed on secure servers located within Australia by default. All processing and data handling associated with the base Services occurs onshore.

(b) Security Standards. The Service Provider will ensure that all storage and processing of Client Data is conducted in accordance with industry best practices for information security, including encryption in transit and at rest, access controls, and regular monitoring.

(c) Compliance. The Service Provider will comply with applicable data protection laws in the jurisdictions where the Client Data is stored or processed and will implement measures to ensure that the processing of Client Data does not diminish the level of protection required under the Privacy Act 1988 (Cth).

(d) Third-Party Systems and Offshore Processing. The base Services do not involve offshore data hosting or processing. Where the Client requests, or accepts a recommendation to use, a third-party system or integration that involves the storage or processing of Client Data outside Australia, such use is outside the scope of the base Services and will only proceed where:

- (i) the Service Provider has disclosed in writing the relevant third-party provider, the jurisdiction(s) in which Client Data will be stored or processed, and any material risks associated with offshore processing;
- (ii) the Client has provided express written approval to proceed, including acknowledgement of the offshore location and the third-party provider involved; and

- (iii) the third-party provider is bound by written terms imposing confidentiality and data security obligations no less stringent than those in this Agreement.

(e) Client Responsibility. Where the Client elects to proceed with an offshore third-party system under clause 13(d), the Client acknowledges that:

- (i) such processing is at the Client's election and outside the base scope of the Services;
- (ii) the Client remains responsible for ensuring its own compliance obligations are met, including under the Privacy Act 1988 (Cth); and
- (iii) the Service Provider's liability in respect of such third-party systems is limited to its own acts or omissions and does not extend to the acts, omissions, or failures of the third-party provider.

(f) No Offshore Processing Without Approval. For the avoidance of doubt, the Service Provider will not transfer Client Data to any offshore third-party system without the Client's prior written approval obtained in accordance with clause 13(d).

14. Governing Law and Dispute Resolution

(a) Governing Law. This Agreement is governed by and must be construed in accordance with the laws of New South Wales, Australia.

(b) Dispute Resolution.

- (i) If a dispute, controversy, or claim arises out of or in connection with this Agreement, including any question regarding its existence, validity, or termination, the parties must first attempt to resolve the dispute through good faith negotiations between senior representatives of each party.
- (ii) If the dispute is not resolved within 20 business days of written notice of the dispute, either party may refer the matter to mediation administered by the Australian Disputes Centre (ADC) in Sydney, Australia, in accordance with its Mediation Guidelines.
- (iii) If the dispute is not resolved within 30 days after the appointment of a mediator, it must be finally resolved by arbitration in accordance with the ACICA Expedited Arbitration Rules. The seat of arbitration is Sydney, Australia, and the language of the arbitration is English.

15. Entire Agreement

This Agreement constitutes the entire agreement between the parties regarding its subject matter and supersedes all prior or contemporaneous agreements, representations, or understandings, whether written or oral. No amendment or variation of this Agreement is valid unless in writing and signed by both parties.

Appendix A – Scope of Works and Fee Schedule

1. Project Overview

The Service Provider will develop and deploy a voice-based AI receptionist named “**Jess**” for **21 Overlays**.

Jess is designed to function as an AI inbound receptionist, engaging with callers in natural voice conversations to answer product and fitment enquiries, discuss colours, finishes, paint protection, install and shipping, guide customers through submitting quote requests, and capture enquiry details for follow-up by the 21 Overlays team.

This initial phase is focused on delivering a **voice-only AI experience** that simulates the interaction quality of a knowledgeable front-counter team member.

Jess will act as a front-line conversational receptionist capable of handling inbound customer calls, answering common product, fitment, install and shipping questions based on approved knowledge sources, and collecting all relevant information required for manual follow-up and quoting by the 21 Overlays team.

This phase does **not** include live call transfer, payment processing, order placement, calendar booking, Shopify integration, CRM systems, or external APIs.

2. What’s Included

The Service Provider will provide:

- Custom AI voice receptionist (“Jess”)
- Call handling on the 21 Overlays business number (via diversion)
- Inbound voice call handling, 24/7 AEST (up to 10 concurrent calls)
- Natural conversational voice interactions
- AI personality configuration aligned to 21 Overlays brand
- Receptionist-style dialogue flow design
- Knowledge base ingestion from 21 Overlays supplied documentation
- FAQ handling for products, fitment by make, model and year, colours, paint protection, install, shipping, and general enquiries
- Caller intent capture
- Enquiry qualification workflows
- Quote-request guidance workflows (photo quote form)
- Manual lead handoff workflows
- Call transcript generation
- Call recordings stored in the AI CRM
- Email notification summaries to 21 Overlays
- AI CRM dashboard access (1 user)
- Live call reporting dashboard
- Prompt engineering and conversation logic setup
- Initial QA and scenario testing
- Launch optimisation period
- Team onboarding/training session
- Ongoing email support

3. Jess Call Handling Scope

Inbound Customer Enquiries

Jess will answer inbound calls professionally and naturally.

Example enquiry categories include:

- Product enquiries (overlay range, colours, finishes)
- Fitment checks by make, model and year
- Paint protection enquiries
- Install enquiries
- Pricing questions
- Shipping and delivery questions
- Stock and availability discussions (based only on approved knowledge content)
- Product recommendations
- Custom work enquiries
- Order status enquiries (captured for team follow-up)
- Customer pre-purchase questions

4. AI Behaviour & Experience Design

Jess will be configured to behave like a polished, knowledgeable receptionist.

This includes:

- natural pacing
- conversational memory within the call
- contextual question handling
- qualification-based conversations
- helpful, product-confident dialogue
- clear guidance toward the photo quote-request form where appropriate
- graceful handling of unclear or out-of-scope questions
- recommendation-style responses
- professional, brand-aligned tone

Jess should feel like a real team member rather than a robotic IVR system.

5. Quote-Request Guidance Behaviour

Because no live ordering or payment integrations exist in this phase, Jess will guide rather than transact.

Jess may:

- discuss available products from approved knowledge sources
- explain fitment by make, model and year
- discuss indicative pricing where provided
- compare options
- answer customer questions
- gather enquiry details
- walk callers through submitting a quote request with photos via the existing 21 Overlays form
- collect vehicle make, model and year
- collect product and colour preferences

- collect install requirements
- collect shipping location
- collect custom work requirements (if relevant)
- collect special requests

Jess will then hand off the completed enquiry to the 21 Overlays team for human completion.

Jess must not represent that payment has been taken, an order has been placed, or an install has been booked unless explicitly instructed.

6. Lead Capture / Enquiry Capture

Jess may collect:

- caller full name
- phone number
- email address
- vehicle make, model and year
- product(s) of interest
- colour and finish preferences
- paint protection interest
- install requirements
- shipping location
- custom work requirements
- budget expectations
- special requests
- urgency / timeline
- follow-up preference

This information will be delivered to 21 Overlays via email notification and dashboard reporting.

7. Escalation / Human Handoff

Jess will capture full enquiry details for manual follow-up where:

- customer requests a human
- customer asks something outside knowledge scope
- customer requests confirmed live stock availability
- customer requests payment processing or order placement
- customer requires special exception handling
- conversation confidence falls below acceptable threshold
- enquiry complexity exceeds Jess's configured capabilities

Escalation method:

- capture lead details and email a summary for manual follow-up (this phase)
or
- live transfer to a nominated 21 Overlays number (available in Phase 2)

(no live transfer is included in this phase; all calls are captured and emailed)

8. Knowledge Base Scope

Knowledge may be sourced from:

- 21 Overlays supplied documents
- product catalogue and range descriptions
- fitment data by make, model and year
- pricing sheets
- FAQ documents
- colour and finish guides
- website content
- approved sales scripts
- approved order and shipping policies
- paint protection, install and shipping detail

Initial knowledge ingestion includes up to **50 pages equivalent content**.

New products may be added to the knowledge base manually as the range grows. Additional knowledge work beyond this may be treated as change requests.

9. Acceptance Criteria

Jess will be considered practically complete when:

- Jess successfully answers inbound calls
- Jess can maintain coherent voice conversations
- Jess accurately responds to product and fitment enquiries based on approved knowledge
- Jess can collect caller and enquiry details
- Jess can guide callers through the quote-request process
- Jess can simulate a knowledgeable front-counter service experience
- Jess can capture enquiry and quote-request intent
- Jess can generate call transcripts
- Jess can generate call recordings
- Jess can send enquiry summaries to 21 Overlays
- reporting dashboard is accessible
- test scenarios demonstrate expected behaviour
- no material defects are identified within five (5) business days of rollout

Practical completion triggers commencement of recurring billing.

10. Not Included (Out of Scope)

The following are expressly excluded from this phase:

- live call transfer to a person (Phase 2)
- additional specialist agents: referral, Google review, reactivation (Phase 2)
- payment gateway integrations
- payment collection or order processing on the call (orders run through the Shopify store)
- confirmed order automation
- API integrations
- CRM integrations
- outbound calling campaigns and follow-ups (Phase 2)
- SMS automation campaigns (optional per-message SMS confirmation available separately, off by default)
- WhatsApp automation
- email automation campaigns
- calendar / install booking integrations (Phase 2)

- third-party system integrations (including Shopify)
- real-time inventory lookup
- live stock availability checking
- automated refunds
- automated cancellations
- order placement
- post-sale customer servicing
- multi-language support (unless separately scoped)

These may be treated as change requests.

11. What We Handle

The Service Provider handles:

- AI voice setup
- conversation architecture
- prompt engineering
- AI persona development
- knowledge base ingestion
- testing
- QA
- deployment
- optimisation during launch window
- support for technical issues
- initial team onboarding

12. Client Responsibilities

21 Overlays must provide:

- product and range information
- fitment information by make, model and year
- colour and finish information
- paint protection, install and shipping information
- pricing guidance
- order and shipping policies
- FAQs
- escalation contacts
- the business number to divert and the internal email address for call summaries
- branding guidance for Jess's personality
- testing feedback
- approval of dialogue flows

Client remains responsible for commercial accuracy of supplied information.

13. Support (Fair Use)

Included support covers:

- bug fixes
- troubleshooting
- technical support
- issue remediation
- system functionality support

Excluded:

- major conversational redesigns
- significant prompt rewrites
- new features
- integrations
- workflow redesign
- knowledge base rebuilds

14. Fee Schedule

All fees set out in this Fee Schedule are payable by the Client in accordance with Clause 2 of the Agreement. All amounts are in Australian Dollars and exclude GST unless expressly stated otherwise.

Item	Rate	Unit	Notes
Setup Fee (one-off, non-refundable)			
Setup and Implementation	\$1,000 deposit + \$1,000 after Agent is live	Once-off	Excludes GST. Payable on signing. Covers initial configuration per Scope of Works.
Platform Fees (recurring, monthly in advance)			
Monthly Subscription	\$100	Per month (includes 222 minutes of call time)	Excludes GST. Commences on practical completion. Auto-billed on the 1st of each month.
Usage Fees (billed monthly in arrears)			
Inbound Call Minutes	\$0.45	Per minute	All inbound minutes handled by the AI agent.
Outbound Call Minutes	\$0.45	Per minute	Where outbound calling is enabled as an add-on.
Call Transfer Minutes	\$0.05	Per minute	When a warm transfer has handed off a call to a live agent.
SMS Messages	\$0.12	Per message	Where SMS module is enabled.
Change Requests (per Clause 6 of the Agreement)			
Standard Change Request Rate (client advised prior to any change request billing event)	\$160 AUD + GST	Per hour	Excludes GST. Minimum charge 1 hour. All work quoted and approved in writing before commencement.
Additional Training Session (client advised prior to any training request billing event)	\$160 AUD + GST	Per hour	Beyond the initial training included at setup.

Notes

- (a) Platform Fees commence on practical completion as defined in Section 9 (Acceptance Criteria) and in accordance with Clause 2(c) of the Agreement.
- (b) Usage Fees are calculated in arrears at the end of each calendar month based on actual consumption and auto-billed via the Service Provider's nominated billing system.
- (c) Rates are subject to annual review on the anniversary of practical completion. The Service Provider will provide the Client with not less than thirty (30) days' written notice of any rate adjustment.
- (d) Change requests will be quoted in writing in advance and no chargeable work will commence until the Client provides written approval

Execution

Executed as an agreement.
